FREIGHT TRAIN RUNS OVER BOY

Penny Ransom Killed in an Acident Thursday Afternoon.

Atlanta, Dec. 1.—While a freight train of the Atlanta and West Point was coming into the city on the Belt Line a small boy ran after it crying aloud:

"You've killed a little boy down here! You've killed a little boy down here!"

The train was stopped immediately, and about 100 yards below Magazine road the trainmen found the mutilated body of a small boy, hardly over 12 years of age. It was put on a cot in the caboose of the train, and carried to the corner of Pearl and Decatur streets. Barclay & Brandon, the undertakers, were called and took the body to their establishment, where it was identified by the parents, who live at 307 Wylie street, outside the city limits.

The name of the boy was Penny Ransom. How he happened to be killed is not known, and the railroad officials say that they could find no eye-witnesses to the affair. It is not denied that he was killed by this particular freight train, but how it was done, is not known.

The engineer did not see the little fellow on the track. It is thought that he must have tried to run under a freight car, while the train was moving slowly by the crossing, and was crushed by the wheels.

Another distinguished guest who was present was Past Grand Chief of the Rathbone Sisters, Mrs. Lillian Morris, of Gainesville. TWENTY-FOUR LIVES ARE LOST

Ninety-Six Other People Were Injured In

THE EXPLOSION IN GERMANY

Shock of Exploding Roburie Felt 10 Miles—Bodies of Killed Terribly Mutilated—Sleeping Children Rescued from Tottering Buildings.

Dortmund, Germany, Dec. 1.—So far as can be ascertained 24 persons were killed, ninety-six were dangerously wounded and several hundred were slightly wounded as a result of the explosion of the roburst factory near Annen.

At the time of the explosion 600 boxes, each containing 80 pounds of roburite, were stored in the factory. The great force of the explosion was felt as far as Dortmund, 10 miles from the scene of the disaster, where a large number of windows were broken.

On the main road to Annen all the houses were razed to the ground, the bodies of the killed being terribly mutilated.

Surviving parents dragged their sleeping children from their beds, collected their portable possessions and fled from the collapsing houses.

A second explosion occurred at 6 o'clock in the morning. Among the killed were the burgomaster and police inspector of the town of Wytten, in the vicinity of the robruite factory.

The manager of the factory was badly injured, but was able to direct the work of rescue, which was only possible at long range, as two hundred weight of dynamite was stored in the powder rooms.

An eye-witness of the disaster says that firebroke out in the roburite factory at 7:30 o'clock and that when the Krupp's fire brigade from the neighboring town of Annen arrived on the scene at 8 o'clock, the firemen had to retire, as other explosions threatened.

Shortly after their arrival flames broke out and the neighboring Krupp works were slightly damaged.

Experts declared that considering the great precautions with which the explosives were stored, the disaster could only have resulted from some outrage.

Emperor William has directed General Von Scholl to visit Annen and Wytten and has subscribed $6,255 for the relief of the sufferers.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. UNION SERVICES AT THE TABERNACLE

One of Most Impressive Services Ever Held in Gainesville.

DR. ANDREW SLEDD PREACHED

His Subject Was Appropriate to the Ocassion, and Listened to With Deep Interest—Singing Was Excellent. School Children Attended.

The union Thanksgiving service held at the Tabernacle Thursday was by far the most impressive service of the kind ever held in Gainesville. The two center sections were completely filled from the stage to the door by the pupils and teachers of the Graded and High School.

The sermon was preached by Dr. Sledd, and he was at his best. No more impressive, no more beautiful sermon was ever heard in Gainesville.

The pupils of the public school attended in a body. At precisely ten minutes to nine they began filing into the Tabernacle with military step and order. In less than five minutes the entire four hundred and sixty were in their places with not a break or a particle of confusion. The order and precision of their movements showed careful training. If Mr. McBeath and his teachers are not proud of those children and their excellent, their admirable behavior, they ought to be. The city of Gainesville ought to be proud of the showing the school made on this ocassion—and how they sang, led by a part of the choir of the Methodist church. Some idea of their number may be obtained from the fact that the double line extended from the school building to the Tabernacle.

As we said, the services throughout were impressive, the singing beautiful and the sermon grand. We regret that there were not more of our people out, though the building was comfortably filled.

Now, after taking 12 bottles, I have more than doubled in weight and am completely cured." Only sure cough and cold cure. Guaranteed by all druggists. 50c and $1. Trial bottle free.

Edward Dillon was pinned down by the frame work of a porch. A hasty effort was made to etricate him. The rescuers worked heroically to lift the timbers from his leg. However, when he was taken out it developed that his supposedly injured extremity was wooden. The other men were slightly injured.

RHEUMATISM
AN ACID BLOOD POISON

Rheumatism is an acid blood poison, and the causes that produce it are often silently accumulating in the system for years. Poor digestion, stomach troubles, weak kidneys, torpid liver, and a general inactive condition of the system leaves the refuse and waste matter, which should be carried off, to sour and form uric acid, which is absorbed into the blood. When the blood is in this acid-charged condition, it deposits the poisons and irritating particles with which it is loaded in the muscles, nerves, joints and bones. Then Rheumatism gets possession of the system, and life is made miserable by its pains, aches and discomforts. The changing of the weather, exposure to cold and dampness, etc., always increase the trouble, and so severe does the pain become that quick relief must be had. A good liniment or plaster is often helpful, but it should be remembered that relief from such treatment is only temporary, because the trouble is in the blood and cannot be removed by external applications. S. S. S. cures Rheumatism by ridding the blood of the cause. It goes down into the circulation and by invigorating and purifying the blood of the acid-poison and sending a stream of fresh, rich blood to all parts, relieves the pain, reduces the inflammation, and permanently cures this painful disease. S. S. S. is the only safe treatment for Rheumatism, because it does not contain a particle of mineral in any form to damage the system. Book on Rheumatism and any medical advice desired sent free. BOBBITT'S MILL AT MICANOPY BURNED

Immense Building, With All Contents, is Now in Ashes.

THE LOSS WAS HEAVY

The Plant Was a Combination Saw Mill, Grist Mill and Basket and Crate Factory—Gainesville and Gulf Depot Had Narrow Escape.

One of the most disastrous fires which has visited Micanopy since the big Benjamin conflagration, started at 11 o'clock Thursday morning, with the result that the immense Bobbit mill, one of the largest in the county, now lies in ashes, the mill, with all contents and a quantity of lumber, having been destroyed. The loss, it is estimated, will reach about $12.000. It is not learned whether there was any insurance.

The Bobbit mill was an immense enterprise. It was a combination saw and grist mill and crate factory, and employed a large number of hands, being quite an important factor in the commercial interests of the town.

The information, which was received here by telephone at noon Thursday, states that the station of the Gainesville and Gulf railroad, which is in close proximity to the mill, caught fire, and it was only through the most heroic efforts of the citizens, in the lack of adequate facilities, to save the building.

Friends of Mr. Bobbit deeply sympathize with him in this loss, which is extremely serious at this time, as it is in the midst of the crate and basket season.

BIG FIRE AT NEWBERRY.

Five Cottages Belonging to Atlantic Coast Line Burned Thursday.

Parties arriving in this city from Newberry Thursday report a serious conflagration which occurred in that town at 6 o'clock on the morning of that day, five cottages belonging to the Atlantic Coast Line, and occupied by employes of that system, having been consumed.

Notwithstanding that the fire was discovered early and the citizens worked heroically to save the property, the facilities were inadequate, and the flames gained rapid headway, spreading from one cottage to another until five had been laid in ashes. The occupants of the cottages saved little of their household effects.

The loss is estimated at from $1,200 to $1,500. It is not known whether there was any insurance.

MR. RAMSEY'S LOSS.

Had Misfortune to Lose Moss Mill by Fire Thursday Night.

F. H. Clyatt of Clyatt Station, on the Gainesville and Gulf, who was in the city Friday, brought the information that the large moss mill belonging to and operated by Perry G. Ramsey at Wacahoota was burned to the ground some time during Thursday night. The mill was in smouldering ruins when Mr. Clyatt passed.

Mr. Ramsey usually kept a large quantity of moss on hand, and it is supposed that this was also burned, which will aggregate a considerable loss, with the building and apparatus.

Friends of Mr. Ramsey will sympathize with him in this loss.

SHOOTING NEAR DUTTON.

Charlie Thompson Shot Another Negro, With Serious Results.

Information reached this city Thursday of a tragedy at Dutton & Co's. wood camp on Sunday night, which cost one life, the victim dying a few hours after the tragedy.

The particulars are very meagre, but it seems that Charlie Thompson, a negro, became involved in a dispute over a trivial matter with another negro, the name of whom could not be learned, when the guns were brought into action. The load from Thompson's gun entered the back of the other man, passing through his body, with the result that he died.

After the shooting Thompson made his escape, and is still at liberty.

FAULTY DIGESTION.

Quickly Shatters the Nervous System and Should Be Given Attention At Once.

If the sufferer with weak nerves only realized that a faulty digestion was the chief cause of nerve exhaustion, a cure would be much easier, for he would then strengthen the digestive organs with Mi-o-na stomach tablets.

A few days' use of these tablets will tone and strengthen the digestive system so that it will absorb all the elements of nerve force from the daily food, and the nerves will be strengthened, sleeplessness will be overcome, weakness will vanish, and the various functions of the body will become natural and regular.

If you have specks before the eyes, are sleepless, have nervous twitchings, headaches and backaches, if there is nausea or distress after eating, if the appetite is poor and there is general debility and weakness, begin the use of Mi-o-na at once, and you will soon notice a marked improvement in health. It will give strength and vigor to the whole digestive system, restore the vital force and nerve energy, and impart ambition, strength and good spirits to the discouraged, run-down and weak.

You run no risk whatever in buying Mi-o-na, for J. W. McCollum & Co. give an absolute guarantee with every 50-cent box that the money will be refunded unless Mi-o-na does all that is claimed for it.

FOOTBALL CASUALTY.

Ralph Thomas Sustained Broken Arm From Thursday's Game.

As a result of Thursday's football game, Ralph Thomas, son of Dr. and Mrs. T. F. Thomas, sustained a broken arm.

The young man was taken to his home and Dr. J. H. Colson summoned, when the wounded member was properly set, and the young man is resting now as easily as could be expected under the circumstances.

Young Thomas was playing right half back on the University team. This accident was the only misfortune to mar the pleasure of the game, and friends of the young man sympathize with him.

What's

Worth doing is worth doing well. If you wish to be cured of rheumatism use Ballard's Snow Liniment and you will be "well cured." A positive cure for sprains, neuralgia, bruises, contracted muscles and all the ills that flesh is heir to. A. G. M. Williams, Navasota, Texas, writes: "I have used Snow Liniment for sprained ankle and it gave the best of satisfaction. I always keep it in the house." Sold by W. M. Johnson.

SERIOUS LOSS TO ARCH. L. JACKSON

His Sugar Cane, Bean and Corn Crops Were Burned.

LOSS IS A VERY HEAVY ONE

Mr. Jackson Was Not Home at Time Fire Was Discovered, But Plucky Little Wife Summoned Help From the Neighbors, Who Fought Bravely.

Thursday was not a very happy Thanksgiving for Arch. L. Jackson, who resides a short distance southeast of the city, where he conducts a profitable farm, because of the fact that fire has devastated a portion of his farm and burned his products and fences, resulting in a loss of months of energy and toil and nearly a thousand dollars in cash.

At a late hour Wednesday afternoon fire was discovered in Mr. Jackson's field, in close proximity to his home. Mr. Jackson was not at home, but his good wife, with wonderful courage, mounted a horse and spread the alarm, but in the meantime, on account of the dry weather and the fact that the crops were dry, the fire spread rapidly, and when assistance reached the scene the flames had gained such headway that it was impossible to check them, and it was only with the most heroic efforts that the home was saved.

Those who visited the scene state that Mr. Jackson lost about an acre and a half of sugar cane, and about twenty-five acres of beans and corn, which was dry in the field and ready for harvesting.

The farm is located near the railroad, and it was said that the fire originated from the sparks of a passing locomotive.

Friends of Mr. Jackson deeply sympathize with him in this loss.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering" J. W. McCollum & Co.

Mr. Bodiford's Return.

W. Trueheart Bodiford has returned to his home in this city from an extended visit through the West, where he has been following his profession as a druggist. During a greater part of his absence he was located in a town called Aspen, in the heart of the Rockies, and where he was well pleased had it not been for the extreme low temperature. The thermometer registered twenty below zero on the morning he left. Mr. Bodiford's friends are glad to welcome him again, and will also be pleased to learn that he has decided to reside here permanently.

Children's

Favorite tonic is White's Cream Vermifuge, the cure for worms and all children's diseases. It not only kills the worms, but removes the mucus and slime in which they build their nests. Its action on the child is mild and leaves him in a healthy condition. Joe Daniel, Surmac, Tenn., says that he gave one of his children White's Cream Vermifuge when the doctor thought it had colic, and from the first dose the child passed 78 worms. For sale by W. M. Johnson.

Sunday School Party.

Through the courtesy of Mr. and Mrs. C. E. McDonald, Rocky Point, the members of the Sunday school at that place were tendered a most delightful Thanksgiving party Thursday evening.

The evening was passed in a manner appropriate to the occasion. There were quite a number present, all of whom are under obligations to the clever host and hostess.

Notice to Our Customers.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.

FINDS HEAVY VERDICT FOR WOMAN

Coast Line Must Pay ,000 For Death of Husband.

KILLED WHILE ON DUTY

Lasted for Three Full Days, and One of the Most Vigorous Legal Fights in Civil Action Known in Alachua for Many Years.

Another one of the hardest fought legal battles in civil action this county has ever known, lasting for three full days, the case of Mrs. Carrie D. Mallard vs. the Atlantic Coast Line Railroad Company, trespass on the case, damages $50,000, came to a close Saturday night, when the jury returned a verdict in favor of the plaintiff for $32,600.

This case has attracted a great deal of interest in all sections of the county, and during the trial about fifty witnesses were summoned to testify. It was the case in which the plaintiff sought to recover damages upon the death of her husband, Wm. A. Mallard, a locomotive engineer, who met his death while in the discharge of his duties on a train of the defendant company.

Attorneys A. H. King of Jacksonville and W. W. Hampton of this city represented the defense, while Attorneys R. A. Burford of Ocala and Syd L. Carter and C. R. Layton appeared for the defense. Every particle of information possible was secured from the various witnesses, and the argument of counsel on both sides was strong and forceful.

After being out about an hour the jury brought in a verdict as above, after which they were discharged with the thanks of the court This is probably the largest amount ever assessed against a railroad company in this State for personal injury.

Court has adjourned for the term, after a three-weeks' session.

Jottings From Judson.

Judson, Nov. 30.—Mrs. W. W. Weeks, J. F. Horn, J. R. Beacham, W. W. Watson, J. D. Sheffield and R. S. Tucker all went to the State Fair last week, and they report a delightful time. They report that Alachua's exhibits of oranges and grapefruit was about as good as the southern counties. R. S. Tucker went further south to inspect the orange groves and truck lands, and Dudley Sheffield says that he is going to move near Dover and try his hand raising strawberries, cabbage and tomatoes. He thinks it will beat raising cotton here.

R. S. Tucker invested in some truck lands near Bowling Green that he says are fine lands for strawberries, cabbage, tomatoes and orange growing.

The vegetable gardens here are suffering very much on account of the extreme dry weather.

Cane grinding is about through with.

The farmers want to plant oats, but it is so dry they fear that they will lose their seed.

The cotton is about all picked out and sold. The price of cotton now is very satisfactory, but the trouble is they never raised enough, and sold it too soon before the advance.

Micanopy Happenings.

Micanopy, Dec. 1.—Mrs. Sue D. Feaster has returned home from her summer trip.

The Bell telephone is in operation. Miss Helen Holtzhausen is day operator, and a Mr. Bishop keeps the 'phones in working order and answers night calls. This is quite a convenience. Now we must have waterworks, light and ice plants. All we need is someone to start.

Quite a number of our people went to the Fair. All report a nice time and came home proud of Alachua county.

All stores were closed Thursday for Thanksgiving.

The trusts having raised the cost of living nearly 50 per cent, are now taking great credit for raising wages ten per cent.

The lead pencil trust is hitting back at the editorial fraternity for knocking it, by advancing the price of lead pencils as much as the traffic will bear.

Some of the Republican leaders take a very pessimistic view of the political future, but how can they expect the people to forever submit to being plundered by their stand-pat plan of protecting the trusts.

A question that will be awaited with considerable interest is whether President Roosevelt will endorse the "trial marriages" plan of Mrs. Parsons as strongly as he endorsed the political work of her husband.

Complaint is general throughout the South, especially in Georgia and Florida, of the miserable railroad service. Just why the railroad officials cannot render the public better service in the transportation of passengers and freight is not clear. Is it owing to the lack of facilities or inefficient traffic men? In either case the fault should be remedied without delay.

A boy who calls his mother the "old woman," or his father "the governor," is building upon the sand. Do you want to be a power among men?—to be a leader? Learn to control your temper,, to master yourself. A boy who does not control his tongue and his temper will never become a master of men. Do not imitate the vices of fast young men, thinking it will make you manly.

The demand for tariff reform is turning a good many hairs gray on the heads of the Republican stand-patters. To revise the tariff would evidently split the party and lose the campaign contributions from the tariff protected trusts that have been the breath of life to the Republican leaders. To again postpone revision will force the issue and aid the Democrats, so the dilemma is a delicate one.

Silver has increased in price so rapidly that the Treasury officials refused to purchase at the price offered. The government of Peru has been forced to impose an export duty of 50 per cent to prevent silver from being exported. With gold decreased in purchasing power nearly 50 per cent and silver increasing in value and Wall street yelling for more money and currency legislation of the wild cat order demanded by the frenzied financiers, whither are we drifting under Republican policies?

To place your umbrella in a rack indicates that it is about to change owners; an umbrella carried over a woman, the man getting nothing but the drippings of the rain, signifies courtship; when the man has the umbrella and the woman the drippings, it indicates marriage; to carry it at an angle under the arm signifies that an eye is to be lost by the man who follows you; to put a cotton umbrella by the side of a silk one means "exchange is no robbery;" to lend an umbrella may be interpreted, "I am a fool;" to carry an umbrella just high enough to tear out men's eyes and knock off men's hats signifies, "I am a woman."

WAGE EARNERS AND FARMERS

There is a new political movement underway that may in the near future have a great effect on party politics. At the late convention of the American Federation of Labor nine fraternal delegates from the Farmers' Union, or the American Society of Equity, were admitted and given the privileges of the floor. In addresses made by them they expressed the hope that the Society of Equity might become affiliated with the Labor organizations. If it is possible to join these two organizations for the common purpose of defeating those who oppose the demands of the farmers and workingmen, the result will be to entirely disrupt the Republican party, which is naturally opposed to what the workingmen and farmers are uniting to attain. The Republican leaders have shown great hostility to the legislation that the American Federation of Labor feels is necessary for the well-being of its members, and the reforms the Society of Equity desires are receiving no encouragement from the Republican leaders, for to grant them would directly interfere with the special privileges of the corportions and trusts that are the chief reliances of the Republican party for campaign funds, which alone keep that party in power.

There are many Republican voters who doubtless believe the reform legislation demanded by workingmen and farmers should be granted, and there are Republicans elected to Congress and State legislatures who promised to vote for such reforms, but investigation shows these are but a small minority of those the Republicans elected as law makers. The great majority are willing followers of Speaker Cannon inhis stand-pat policies on labor legislation and revising the tariff.

On the other hand, Democratic representatives have shown every desire and have promised to vote for the legislation demanded by the workingmen and farmers, for the Democratic party has no alliance with the corporations and trusts and no desire other than the greatest good to the greatest number, with "equal rights to all and special privileges to none." With a compact and militant organization the wage earners and farmers, with their natural allies, the Democracy, will be politically irresistible.

ENTIRELY TOO PREVIOUS.

History often repeats itself, and the history of politics is no exception, of which the editor of The Sun is reminded by the result of the recent election in Manatee county. In 1894 the editor of the Bodyper was one of the successful candidates for the Democratic nomination for the Legislature, and as soon as an old friend in a South Florida county, who had also been nominated for the Legislature, received the information of our success he wrote us requesting our support of his candidacy for Speaker of the House of Representatives of 1895; we replied that we had not yet been elected (simply nominated), and could not promise to support anyone until after the general election. At the same time we suggested to our friend that he was a little premature and that he had better wait until he was elected before making formal announcement for the Speakership. A bitter fight was made upon him, with the result that when the votes were counted at the November election he was defeated. And the same thing has occurred this year of A. D. 1906. No sooner had John A Graham been nominated for the Legislature from Manatee than he announced his candidacy for Speaker; but he will not even be a member of the body over which he aspired to preside.

Moral: Don't count your political chicks until the votes are counted.

AN UNEXPECTED REFORM.

When Chicago doubled its liquor license fee it hoped to gain two objects—the wiping out of the cheap saloons, notoriously the haunts of vice and the breeding spots of crime, and an increase in the revenue which would permit the enlarging of the police force. But the increase of the saloon license from $500 to $1,000 seems to have wrought another and unexpected reform. It has reduced Chicago's consumption of liquor and inferentially its drunkenness.

As soon as the high license law was enacted the saloon-keepers set about to make it as objectionable to their patrons as themselves. They cut out the free lunch, abandoned the schooners and began serving small glasses on the ground that they cannot afford under the new rate to be as generous as of old. The purpose is of course plain, as reproachfully stated by one saloon-keeper to his protesting customers, "We got to make the drink fit the wishes of the community, which is not you fellows. It is thus put up to you fellows to get a majority and be the community."

But the saloon-keeper overlooks the fact to which a contemporary calls attention, that the reduction may be a double-edged object lesson. If doubling the license fee cuts the size of the drink in half is it not likely that the opponents of the saloon may be found asking how high the fee would have to be raised to cut out the drink altogether? This is a pertinent inquiry and it seems to be a logical one.

IT OUTSHINES ITSELF.

The Sun is indebted to its contemporaries for many complimentary notices, but never has such a notice appeared in the State press that was more appreciated than the following from The Tampa Tribune. The editors of The Tribune and Sun have been intimate personal friends from boyhood and it makes the latter's heart glad to have his friend speak as he does of the work in the following lines:

"Our contemporary, The Gainesville Sun, is ever a welcome visitor to the sanctum and brightens things up in fine shape; but last week's Industrial Edition quite takes the shine out of all its previous efforts because of its phenomenal brilliancy. The Tribune congratulates Editor McCreary most heartily upon the outcome of his splendid energies. The Evening Stars and Morning Stars and all the Suns of the great universe of paperdom should look well to their scintillations of wit and blazes of rhetoric if he keeps on this way.

"And Alachua county, how proud it should be to be so well illuminated by this resplendent orb. One sees deep into the most hidden recesses of its fertile secrets; and a wondrous tale of industrial growth and steady onward flight toward the zenith of prosperity is told to those who read the pages of this newspaper. Good luck to it and to old Alachua now and forevermore. Amen."

TAXING THE CHILDREN.

When you buy the Christmas toys for the little children and wish they did not cost so much, so that you might also buy for some other little ones you know of who are not so well provided for as your own are, remember that the tariff tax on these toys is from 25 to 50 per cent, according to the kind and quality. As there is over $200,000,000 in the United States Treasury more than the government requires, and of that amount $154,000,000 is loaned without interest to favored national banks, there is no need for this tax on dolls and toys that the Republican party persists in collecting. Ask your Republican neighbor to investigate the tariff tax, and the more he looks into it the less likely he will be to vote to continue the stand-patters in power when the election in 1908 comes around. No sensible voter can desire to pay taxes to protect the trusts and thereby allow those corporations to advance the price of their products, when he discovers that the money is not necessary to provide for government expenses, and especially when out of what he pays in increased prices the government gets but one-sixth of what goes to the trusts.

THE LESSON OF THE FAIR.

From The Tampa Tribune.

At 7 o'clock Wednesday evening, in the rotunda of the Tampa Bay Hotel, the Board of Judges of the Florida State Fair made formal award of prizes to the most successful exhibitors. This board is composed of D. H. Mays of Montiecllo, W. A. MacWilliams of St. Augustine, Jefferson B. Browne of Key West, and J. T. Harp of Palatka. With such men as these arbiters there can be no question as to the justness of the decisions, for their knowledge of the various productions of the State, their ability to discriminate in the matter of quantity and quality, and their absolute probity of character, will leave no room for question, and their decisions will be received as true, and, therefore, final.

It is a remarkable thing, and very hopeful in its meaning, that two counties, Alachua and Polk, should have tied in the leadership so far as a general exhibition of productiveness goes. Each may flaunt one-half of the blue ribbon that, so little in itself, yet when used as denoting a leadership between the political divisions of a great and still growing State, means more than the millions of a Rockefeller or the laurels of a pagan conqueror. It shows an earnest competition between the two to carry off the coveted badge, and that each should have attained to the same percentage, 84.6, shows how close has been the battle, how watchfully and carefully fought. Last year Polk was third and Alachua fifth in the race, yet this year they both came to the front, a splendid example of proper ambition, rewarded in full measure by the admiration of the people.

How close to the winning figure was Manatee county, with its percentage of 84.4. Just one-fifth of one per cent of tying Polk and Alachua, although last year she was fourth in the race. But the prize she won should be worth much in her eyes, for, closely following the lead of the best two in the race for production precedence, she had awarded to her the first prize for good looks, and in these days, when men are judged by their clothes, it means much for her future prosperity.

Orange county took this year the third place, which was awarded to Polk in 1905, but her special rating as the best producer of the delightful chicken should place her high in the estimation of those people—and they are good people—who know a good thing when they see it. Hernando county came fifth on the list for the general prize, but her largest and best display of the solid stamina, the woods of the State, was a reward for what she lost in the way of raised productivity. Osceola, Pasco, Washington, Lee, DeSoto, follow in the list of counties mentioned. But Lee county had the best and largest display of vegetables, DeSoto the finest display of pineapples, Washington the best State exhibit of hay, while she led as the western county of the State. The two blue ribbon counties have also been awarded prizes in the topographical contest, Alachua being the leading Middle Florida county and Polk the best county of South Florida. Last year Polk came near the head in each of the items competed for, although not winning the first place, that having been given to Marion, which county is not represented this year, we are sorry to say.

It is worthy of notice that Hillsborough county, which last year ranked second in general display of products, this year takes its place along with Duval county as a commercial center, and takes prizes for women's work, floriculture as a business, and education along technical or scientific paths.

The Fair, as a whole, shows a wonderful achievement of the State, taken all together, the development of new centers of commercial activity, along with the increased productiveness of the soil; in other words, the establishment of a condition of independence that guarantees a present prominence in the affairs of the nation, and a future predominance whose extent no one, at this time, may reckon, and at the same time the awakening of its counties devoted to agriculture of strenuous competition based on a scientific study of the soil and the best means to use to improve its fertility. This is a balancing process and argues well for Florida.

There is not a county in the State, however, that need be ashamed of the products it has offered on exhibition, whatever they were—fruits, vegetables, cotton, tobacco, woods, cattle, horses, live stock, fowls, or any one of the hundreds of things that go to make the broad expanse of the farming districts the mainstay of human life, or the products of industry that arise from the centers of commerce, the mainspring of human activity and common wealth.

Yes, Christmas is drawing very near. Then let us with one hand tenderly cling to the old year, while we stretch forth the other to greet the new. To some it has been a year of prosperity, to others one of adversity and sorrow. As we look back over past events we cannot fail to note the absence of many that were with us a year ago. But now they are gone, been called home to return no more. This time last year they were planning a surprise for some one near and dear to them in the way of a Christmas present that would cause them to be remembered as the years roll on bringing the joyous Christmas time.

The official figures of the vote of the recent election show a majority of 5,326 against the drainage amendment in a vote of 18,388 cast upon the question. Only two counties comprising the so-called drainage district voted in favor of the amendment—Brevard and Lee.

Running a newspaper is like running a hotel, only different. When a man goes into a hotel and sees something on the table which does not suit him, he does not raise hades with the landlord and tell him to shut up the hotel. Well, hardly. He sets the dish to one side and wades into the other dishes that suit him. If he is with some newspaper reader he will find an article occasionally that does not suit them exactly, but instead of stopping to think it may please hundreds of other readers, many of whom stand play and tell the editor how the paper should be run and what should be put into it.

"Is your father rich?" asked a five-year-old girl, and the little one replied confidently, "Why, of course! He's got me." And he is right, too, for the father of a kind, loving, helpful little daughter is richer than some millionaires whose money cannot buy them the love of a single heart. How about you, reader? Does he feel that he is a rich man because of the daughter at home? There are households where it is hard to make both ends meet," but where there is plenty of that better thing, love and goodness and purity, is yours one of them?

Referring to that class of whiskey dealers known as blind tigers, The Brooksville Argus says: "The blind tiger is the vilest creature on earth. An ignorant negro as black as Erebus, digging in mines, living and sleeping in a shanty of shucks, is more to be respected than he. He deserves the contempt and execration of all honest and honorable men. The air is made vile by his breath, and rottenness reeks in the community where he lives and operates, for he can only thrive on the putridity of a people."

The advance in the price of Sea Island cotton to over thirty cents shows what organization can do when properly conducted under favorable conditions. If the growers largely increase the acreage the coming season, however, no such price need be expected for the next crop. It is better to get thirty cents per pound for five bales of cotton than eighteen cents for ten bales, for the five bales can be produced for just half what it would cost to produce the ten bales.

The Florida Supreme Court has decided that if at any time a conditional pardon granted a convict is violated, the party can be rearrested by order of the pardoning board and required to serve the remainder of sentence. The decision is eminently proper, and will serve as a warning to convicts who have been released upon condition of future good behavior.

No effort should be spared in running down the "blind tigers," and every good citizen should assist in the "hunt." These law-breakers are responsible for nine-tenths the crime committed in Alachua county.

John A. Graham, the defeated Democratic nominee for the Legislature from Manatee county, will contest the seat of his successful Socialist opponent, Mr. Pettigrew.

Princeton, Ind., Nov. 30.—Frank Turner, aged 26, a farm hand in the employ of John Redman, became suddenly insane and going to the barn, slashed a valuable horse several times across the side and hip, seriously injuring the animal.

When discovered by Redman he was cutting strips of flesh from the animal's hip and laughing hysterically. When driven away from the horse Turner gave chase to a hog, and on catching it, slashed it across the back with the sharp blade. He was finally overpowered and disarmed by Redman, who locked him in the barn until Sheriff Whiting could reach the scene. He is now confined in the county jail here, and the sheriff of Martinsville, Ind., his former home, has been notified to come for him.

Atlanta, Nov. 30.—The ury in the case of the state against J. H. Crutchfield, on trial in the superior court upon the charge of having shot his wife with intent to kill her, returned a verdict of not guilty, after remaining out one hour and twenty minutes. While the verdict may be a surprise to some, it was not to Crutchfield, who, while waiting for the jury to reach a verdict confidently said: "I'll be acquitted. I know it because the Lord told me so in a dream, just as He told me in a dream that my wife would not die from her wound."

"It Suits to a T."

The clause, "It suits to a T," meaning it fits exactly, is as old as the familiar instrument, the T square or T rule (so called from its resemblance to the letter T), used by mechanics and draftsmen for making angles true and for obtaining perpendiculars. The expression was in common use in the time of Dr. Johnson, who is quoted by Boswell as saying of Wharburton, "You see they'd have fitted him to a T."

PRESIDENT SPENCER MET SUDDEN DEATH

President of Southern Railway Killed in Rear-End Collision.

HIS BODY IS BURNED

One of the Most Widely Known and Most Competent Railroad Officials in United States, and Built the Southern Up to a High Standard.

Washington, Nov. 29.—President Samuel Spencer, of the Southern Railway, was killed this morning in a wreck which occured at Lawyer, eleven miles south of Lynchburg. At the general offices of the Southern Railway the following statement was issued:

"Southern Railway passenger train, No. 33, left Washington last night for Jacksonville. Owing to the congested holiday traffic, at 6:30 a. m., at Lawyer, Va., on a portion of the road protected by the block system, the train was stopped for slight repairs to a coupling. Passenger train No. 37 was following No. 33, and being given a clear block, ran into the rear of No. 33, resulting in the serious wreck. Advices indicate the collision was due to the negligence of the operator in allowing No. 37 to pass the block. President Spencer and a party of friends were in the officer's car at the rear of No. 33.

Spencer's Body Burned.

President Spencer's body was burned beyond recognition. Philip Schuyler of New York, of Mr. Spencer's party, was also killed, as was Mr. Spencer's special train dispatcher, D. W. Davis, of Alexandria, and Engineer Terry, and Mr. Spencer's private secretary, Mr. Merrill. One man, not yet identified, was also killed. Eight negroes were injured, one probably fatally. President Spencer's private coach was entirely burned. The party was on a hunting trip South.

TWENTIETH CENTURY CLUB.

Interesting Meeting at Home of Mrs. A. M. Cushman Monday.

The meeting of the Twentieth Century Club, held at the residence of Mrs. A. M. Cushman on Monday, December 26th, was an occasion of more than usual enjoyment, and a large attendance testified to the well sustained interest in club affairs.

After the discussion and disposal of the accumulated business, the most entertaining item of which was the excellent financial report of the treasurer, the leader of the day, Mrs. Tench, took the chair, and the literary program was inaugurated. The important feature of this was an excellent paper prepared by Mrs. A. R. Harper on "The Tudor Sovereigns of England," which was supplemented by some personal incidents of the Shakespeare country from Mrs. Medlin, a brief selection on the same subject read by Mrs. Phillips, and another interesting bit of English history read by Mrs. Chapin. Very general table talk upon the subject under discussion followed, and when the gathering twilight forced a reluctant dispersal, it was with a general regret that the good-byes were uttered.

The club has inaugurated the year's work under most auspicious conditions. The membership is full, the scope of work considerably enlarged, and the very general interest manifested indicates that the work will be conscientiously performed.

The fact that the next Federation of Woman's Clubs will meet in Gainesville at the invitation of the Twentieth Century Club, will prove an incentive to energy, even if the work itself were not so interesting.

WOMEN BATTLE WITH NEGRO.

Criminal Assault Is Prevented by a Desperate Resistance.

Hot Springs, Ark., Nov. 30.—John Simms, the wife of a prominent merchant, and Miss Florence McKeehan fought a negro for twenty minutes to prevent him accomplishing both burglary and criminal assault. In the fight Mrs. Simms was choked almost to death and beaten until her clothes were covered with blood.

When the two women were totally exhausted and prone upon the floor of the kitchen of Mrs. Simms' home, her husband arrived, and the negro fled. At this time every officer in the police department and every deputy sheriff and constable are scouring the city and suburbs, searching for the negro. Excitement runs high and if he is caught a lynching will follow.

The negro hid in the house and waited for the woman to return from shopping. Both Mrs. Simms and Miss McKeehan gave an accurate description, and it is believed that his capture will take place before morning.

Bloodhounds have been wired for, and will be on the trail in the morning if the negro is not captured before then.

Killed Father-in-Law.

HIGH SCHOOL NOTES.

Banner For November Was Won by Eighth Grade With Close Contest.

By Special School Correspondent.

The banner for attendance and deportment for the month of November was won by the eighth, Mrs. Coffey's grade, and was presented Tuesday morning. Frances McDowall and Mamie McGrew having tied for first rank in this grade, with a monthly average each of 98 per cent, will carry the banner on alternate weeks this month.

The contest for the banner last month was very close, as will be seen by the following report of the attendance and deportment of the four grades standing highest:

Grade	Attendance	Deportm't	M'thly Av.
III	97	94.6	95.8
V	94.6	98.2	96 4
VI	96	98 2	97 1
VIII	98.6	97	97 8

The attendance of the eighth, and the deportment of the fifth and sixth grades being well nigh perfect, but the eighth grade winning on the general average by seven points.

The fourth and seventh grades and the two high school rooms have served notice that they propose to be in the banner contest for the present month.

The boys and girls of the high school department came in for a good deal of well-merited praise from the principal for their improved deportment last week.

The Thanksgiving services at the Tabernacle were greatly enjoyed by the whole school. We hope Dr. Sledd will visit us some morning and talk to us at chapel exercises.

The Euclean Literary Society had their semi-monthly meeting Wednesday afternoon instead of Friday on account of the Thanksgiving holidays.

In Praise of Chamberlain's Cough Remedy.

There is no other medicine manufactured that has received so much praise and so many expressions of gratitude as Chamberlain's Cough Remedy. It is effective, and prompt relief follows its use. Grateful parents everywhere do not hesitate to testify to its merits for the benefit of others. It is a certain cure for croupe and will prevent the attack if given at the first appearance of the disease. It is especially adapted to children, as it is pleasant to take and contains nothing injurious. Mrs. E. A. Humphreys, a well known resident and clerk in the store of Mr. E. Lock, of Alice, Cape Colony, South Africa, says: "I have used Chamberlain's Cough Remedy to ward off croupe and colds in my family. I found it to be very satisfactory and it gives me pleasure to recommend it." For sale by all druggists.

Negro Porter Shot.

Special Agent F. S. Rhoads of the Atlantic Coast Line is in the city. Mr. Rhoads states that on Friday night at Dukes, a small station on the J. & S.-W. division of the Atlantic Coast Line, the negro porter of the Jacksonville-Newberry train was shot by some unknown party just as he was mounting the platform as the train was pulling out. The ball broke the lantern in the negro's hand, and inflicted a slight flesh wound in the hand. Three negro women and two men were arrested, but there being not sufficient evidence against them they were released.

King of All Cough Medicines.

Mr. E. G. Case, a mail carrier of Canton Center, Conn., who has been in the U. S. service for about sixteen years, says: "We have tried many cough medicines for croup, but Chamberlain's Cough Remedy is king of all and one to be relied upon every time. We also find it the best remedy for coughs and colds, giving certain results and leaving no bad after effects." For sale by all druggists.

Death of Waldo Lady.

Mrs. J. F. Simmons died last Friday after a long illness at the home of her daughter, Mrs. Charlie Sullivan, in this city. Mrs. Simmons was brought from her home in Palatka to Waldo several weeks ago to be convenient to her favorite physician, Dr. J. M. Boring. Disease had worked its way so rapidly, though, that all efforts proved fruitless. Her husband and children were with her at the last. She died a Christian, as her last words testified. The funeral was conducted Saturday, and she was laid to rest in the Waldo cemetery.—Waldo News.

Water Cure For Constipation.
